"Old Mother Heyburn went to the cupboard
To get her poor dog a bone;
When she got there, the cupboard was bare,
And so the poor dog had none."

Jim Hill listens to an amusing story—

And sees its application to freight rates.

#### THE STORY

I must tell you of the eccentric conduct of a man out in Washington. He is a freighter hauling merchandise from the railroad to a mining camp fifty miles away. Well, the ridiculous part of the story is that this freighter persists, on every trip, in hauling the freight twenty-five miles beyond the mining camp that consumes it, and then back again to the consumers. And stranger yet, this extra haul is over a steep mountain grade.
